Marking entries

Most mechanical keyboard firmware{^} supports the use of [key combinations]{^}.

Most mechanical keyboard [firmware](#) supports the use of [key combinations](#).

Heading overrides

This is a standalone mark: `{^"foo bar"}` and this one has an overridden `[heading]{^"foo baz"}`.

This is a standalone mark: and this one has an overridden [heading](#).

Nested headings

This is a standalone nested mark: `{^"foo bar">baz}` and this one will create an identical entry: `[baz]{^"foo bar">}`.

This is a standalone nested mark: and this one will create an identical entry: [baz](#).

Emphasised and expanded headings

This entry will be **bold**, *italics*, underline, ~~strikethrough~~ or ***bolditalics*** in the index. This expanded entry won't be emphasised (nope)".

This entry will be **bold**, *italics*, underline, ~~strikethrough~~ or ***bolditalics*** in the index. This expanded entry won't be *emphasised*.

Emphasis-stripping with wildcards

This entry won't be ***bold***, *italics*, *underline* or ~~*strikethrough*~~.

This entry won't be **bold**, *italics*, underline or ~~strikethrough~~.

Prefix wildcards

Sir Winston Leonard Spencer Churchill{^"*", Sir Winston Leonard Spencer"} was Prime Minister from 1940 to 1945, and again from 1951 to 1955. Churchill{^*^} was born on 30 November 1874, in Blenheim, Oxfordshire.

Sir Winston Leonard Spencer Churchill was Prime Minister from 1940 to 1945, and again from 1951 to 1955. Churchill was born on 30 November 1874, in Blenheim, Oxfordshire.

Sort keys

The Greek lowercase letter gamma{"Greek letters"> ~y} looks like a "y", sigma{"Greek letters">} does not.

The Greek lowercase letter [gamma](#) looks like a "y", [sigma](#) does not.

Closing marks for continuing locators
